

Berliss Bearing Company is pleased to offer a complete line of electric motor quality (EMQ) bearings. Our electric motor quality bearings are designed to provide quiet and smooth operation in electric motors. They are available in various configurations including open and single or double sealed or shielded types. Our line of EMQ bearings includes the 6000, 6200 and 6300 series and are manufactured to ABEC 3, C3, Z2V2 specifications. All Berliss EMQ bearings are individually packaged with premium quality grease.

We are confident in our ability to manufacture and meet the high demands for quiet and smooth running EMQ bearings for the electric motor market.

All Berliss EMQ bearings are manufactured to meet or exceed the criteria indicated below.

- **HIGHEST STANDARD:** All Berliss EMQ bearings meet or exceed ABEC 3 tolerances
- **HONED RACEWAYS:** All Berliss raceways are honed and ground to insure quiet operation and a longer life
- **NOISE TESTED:** All Berliss EMQ bearings are noise tested before and after lubrication
- **VIBRATION TESTED:** All Berliss EMQ bearings are vibration tested
- **STEEL RETAINER:** All Berliss EMQ bearings come with a steel retainer

EMQ BEARINGS

- 6000, 6200 & 6300 Series Available
- ABEC3
- C3 Clearance
- Vibration/Noise: Z2 V2
- Individually Boxed
- Various Configurations (Open, RS, 2RS, Z, ZZ)

MECHANICAL SEALS

Berliss manufactures high quality, cost effective, single spring mechanical seals. We offer and stock a wide variety of industry standard sizes and can also supply multi-spring and cartridge seals. We also have a range of gasket and packing materials to meet all of your fluid sealing requirements.

CUSTOM BEARINGS

Berliss is a leading manufacturer of custom bearings and bearing assemblies for a variety of industries including material handling, recreation vehicle and agricultural. Our sales and engineering teams are available to assist in the design and implementation of all your custom bearing and bearing assembly requirements. We offer solutions in unground, semi-precision and precision bearings, and we are able to utilize a wide range of materials to satisfy all of your custom needs.
