

Berliss Companies, established in 1932, is a fourth generation, family owned business that specializes in the manufacturing and supply of a complete line of roller bearings, mechanical seals, ball bearings, custom bearings and mechanical sub-assemblies.

At Berliss, we are proud to have the hands-on customer service of a small firm while possessing the capabilities of a large corporation. As Berliss has grown so too has the diversity of our bearings and solutions. Our commitment to high quality and customer satisfaction remains paramount.

In addition to supplying standard bearings, Berliss has developed many mechanical sub-assemblies for various industries. At Berliss we handle every detail from design to delivery, providing reliability of mating parts while also providing significant cost savings.
